PROFESSIONAL SUMMARY

Results-driven Software Developer with 7+ years of experience designing and delivering enterprise applications across the full software development lifecycle (SDLC). Proven track record in full-stack web development, RESTful API design, and system integrations. Adept at collaborating with clients to translate business requirements into scalable, efficient solutions. Currently serving as Sr. Software Developer at Kintetsu World Express Philippines.

TECHNICAL SKILLS

Front-End: React, Vue.js, TypeScript, JavaScript, jQuery, Bootstrap, Styled-Components, HTML, CSS

Back-End: PHP, Python (Flask), VB.NET, MySQL, SQL

Frameworks & Tools: Laravel, ASP.NET, Docker, GitHub, Bitbucket

DevOps & CI/CD: GitHub Actions, Docker, Linux Server Deployment, Vercel

WORK EXPERIENCE

Sr. Software Developer

May 2026 – Present

Kintetsu World Express (Philippines) Inc.

- Lead end-to-end software development and deployment of enterprise applications.
- Collaborate with clients to deliver scalable, business-aligned solutions.
- Develop and maintain the Information Technology Online Support System v2 (ITOSSv2).
- Continuously improve system performance, functionality, and reliability.

Jr. Software Developer

Apr 2024 – May 2026

Kintetsu World Express (Philippines) Inc.

- Led client collaboration and delivered solutions across the full SDLC, from requirements gathering to deployment.
- Enhanced and supported in-house systems through module improvements and data updates.
- Implemented Multi-Factor Authentication (MFA) using Microsoft Authenticator to strengthen enterprise security.

Backend Developer

Apr 2024 – Jun 2024

Seaversity Inc.

- Developed a Maritime Academy Admission System with end-to-end functionality.
- Built RESTful APIs with full CRUD operations to efficiently manage student records.
- Reviewed and debugged code to improve system performance and reliability.

Computer Programmer

Mar 2022 – Nov 2023

United International Private School – Dubai, UAE

- Maintained and optimized school systems and website using MySQL, SQL, VB.NET, PHP, JavaScript, and jQuery.
- Implemented third-party software and automated processes for report cards, student IDs, and yearbooks.
- Provided technical support and created user manuals to improve system adoption and efficiency.

Systems Engineer

Sep 2018 – Feb 2022

Kintetsu World Express (Philippines) Inc.

- Led client project discussions, delivering solutions across all SDLC phases while gathering feedback and resolving issues.
- Developed the IT Online Support System (ITOSS) and automated workflows, providing system support, database updates, and performance optimizations.

- Created user manuals and streamlined technical processes to reduce manual intervention and improve adoption.

KEY PROJECTS

Information Technology Online Support System v2 (ITOSSv2) | *Python Flask, React, TypeScript*

- Upgraded ITOSS to version 2 with improved workflows, modern UI, and enhanced performance.

Human Resource Information System (HRIS) | *Python Flask, React, TypeScript* | *Freelance*

- Built a system to manage HR processes and employee data efficiently.

PIMS Admission – Maritime Academy Web App | *PHP Laravel, Vue.js* | *Freelance*

- Processed student registration and managed student data for a maritime academy.

MFA Admin Login Portal | *Python Flask*

- Developed an admin portal to manage user accounts and control access across in-house systems.

Integrated School System (ISS) | *Bootstrap, HTML, jQuery, JavaScript, MySQL, PHP*

- Integrated Payment, Parent, and Student Portals into a unified school system.

UIPS POS – Sales & Inventory System | *VB.NET, SQL*

- Developed a Windows-based sales and inventory management system.

EDUCATION

Bachelor of Science in Information Technology

Central Colleges of the Philippines

2014 – 2018
